## **Town**

## **Meat Puppets**

Nowhere an hour is the speed that I fly Greeted by vapors when I do arrive Don't mind my story
It'll only drag you down

In a one trick town
One sick clown
Instincts on a high wire
The rain flying around
In a one trick town

The sun is a spark from the axe that I grind The bright night of wishes, a wish to unwind The river in winter has froze to the ground

To the one trick town
One sick clown
Instincts on a high wire
The rain flying around
In a one trick town

Nowhere an hour is the speed that I fly Greeted by vapors when I do arrive Don't mind the memories
They will only drag you down

In a one trick town
One sick clown
Instincts on a high wire
The rain flying around
In a one trick town

One trick town
Don't mind the memories
They will only drag you down

In a one trick town
Don't mind the memories
They will only drag you down

In a one trick town
