

Vultures circle the sky
Burning the ground from on high

Maybe I've been wasted
and maybe I'm amused
but mostly this just seems like a whole lot to lose
in such a small time
in such a small time

We killed it off before it could fly
hunted it down and then watched it die

Maybe I've been wasted
and maybe I'm amused
but mostly this just seems like a whole lot to lose
in such a small time
in such a small time

Vultures flying in code
burned the tongues from the road

Maybe It's amazing
and maybe I'm confused
but mostly this just seems like a whole lot to lose
but mostly this just seems like a whole lot to lose
in such a small time
