

Pit Muses Have No Pity

Mechanical Poet

How many days have passed since
That crazy summer day
I haven't seen your face so far...
What's up with you today?
It seems like everything is wrong
I cannot sleep at night
And all I have is just... that void inside

Somebody help me to change what I've done
I feel that time is against me
I have no time
Give a chance to explain it to everyone
I know that time is against me
I have no time

From early morning till late night
My company is me
I hate this place and even more
I hate myself for being here
If only I could say a word
But you don't give a try
You didn't come, you didn't call...
And no one tells me why...

Somebody help me to change what I've done
I feel that time is against me
I have no time
Give a chance to explain it to everyone
I know that time is against me
I have no time

Somebody help me to change what I've done
I feel that time is against me
I have no time
Give a chance to explain it to everyone
I know that time is against me
I have no time

Somebody help me to change what I've done
I feel that time is against me
I have no time
Give a chance to explain it to everyone
I know that time is against me
I have no time

Somebody help me to change what I've done
I feel that time is against me
I have no time
Give a chance to explain it to everyone
I know that time is against me
I have no time
