Meden Agan

Red clouds surrender to the nightfall
Walking through the fields of light
I foresse ages of chaos!!
I cant free myself from my soul

Red clouds surrender to the nightfall
Black ships arrives from the sea
The battle of our time arises
This is the time for war and glory

Maiden of beauty!! I cannot stop this darkness
As I new life ruins into my veins
I have the power!! I have my curse!!
Bear witness to my strenght!!

Can't you see in to my eyes?
The flame still burns inside me
I'm petrified!!
My hands covered with blood!!

I hear the voice of death to the battlefield!!
The shadows take us all
Wandering in the waves of tears?
Eternal down fall!!

Take my pain away!!
Take my dreams
On the wind!!
