

## Embers

Media Lab

Break me, release me, take my soul away, your blinding everything  
Smiling, I'm crying, running through my veins, erasing everything  
Now everything is grey, ashes blown away  
I'm drifting further everyday  
Reliving hell everyday, everyday, come on and make me fall, fall, fall  
Embers burning away  
Use me, abuse me, controlling night and day, releasing all my pain  
Dying, I'm falling into this hell again, take over me my friend  
I can feel you pulling - I can't feel my soul
