Break me, release me, take my soul away, your blinding everything

Smiling, I'm crying, running through my veins, erasing everything

Now everything is grey, ashes blown away

I'm drifting further everyday

Reliving hell everyday, everyday, come on and make me fall, fal l, fall

Embers burning away

Use me, abuse me, controlling night and day, releasing all my p ain

Dying, I'm falling into this hell again, take over me my friend I can feel you pulling - I cant feel my soul
