

So many questions /acoustic skit

Medial banana

What am I
Who are we
What are we supposed to be
How we come
And how we go
Is there some plan high above
What is the life
What means dead
Does it really began with one word said
How high
How low
Can reach the human soul
Where are we from
Where do we aim
Is there a life without the pain
Why are we happy and
Why are we sad
How can happiness be spread
What is the meaning
What is the point
Is this a really just the race for a coin
Do we have souls
Do we have spirits
Do you have conscious to overstand the lyrics
Do we feel music
Does music feel we
Why is my music for us necessity
Why we feel joy
Why we feel pain
Does it have to be turning over again
What is the love
How does it feed us
What is that feeling we let to lead us
What is the heaven
What is the hell
Isnt it a state of mind as well

So many questions
So likkle answers
Are we healers
Or are we cancer
