## Medicine

## Lucy

The day that I left Lucy A tear fell from her eye Now I don't have nobody, and I was such a fool On the day that I left Lucy.

The day that I left Lucy She cried, then said goodbye Now it's done, and it's over, and I am all alone On the day that I left Lucy

Now I don't have anymore songs to sing 'Cause you were everything, everything to me I didn't realize I felt this way, until that day

Today I'm missing Lucy And you say that she's OK, I hope she is. Now I don't have nobody and no one will ever replace... My Lucy, I love Lucy, Lucy

On the day that I left Lucy... my Lucy
