Lonely

I can never forget The way you held your arms around me I guess I have to admit I was afraid to end up lonely

Can't imagine life without you Cause I don't wanna have another lover Yes I adore you But I won't be coming back

Did it make you feel good to see me hurt To see me hurting Happy to see you broke me first Hey baby do you believe You gave me what you thought I deserve Do you believe you conquered what

Are you lonely I hope you're feeling lonely Baby are you lonely I hope you're feeling lonely

How could you forget I was the one you kept on blaming You said I made you upset It wasn't true what you were claiming

And there will be no regrets This time I think I leave you hanging No there is no longer you and I you and I Cause you later ground stranded So tell me baby

Did it make you feel good to see me hurt To see me hurting Happy to see you broke me first Hey baby do you believe You gave me what you thought I deserve Do you believe you conquered what

Are you lonely I hope you're feeling lonely Baby are you lonely I hope you're feeling lonely

Hey, for leaving me Leaving me For leaving me Leaving me
