

Threesome

Medina

She's been up all night drinking with her friends.
And you've been hanging up all night tasting me again.
I heard it through the great bunch you'd probably do the same.
She's with another man, she's with another man.

Maybe we should be first to open up about it,
Maybe we should be the first to ask her if she wants,
Maybe we should be the first to show her how it could be,
Maybe we should be the first to ask her if she's all,
Cause maybe we could drink some,
Then we could have a threesome.

I've been up all night just imagining...
What it feels like kissing on your girlfriend.
I heard it through the great vine she likes the kind of woman I
am,
Yes I heard it through the great vine,
I heard it through the great vine.

Maybe we should be first to open up about it,
Maybe we should be the first to ask her if she wants,
Maybe we should be the first to show her how it could be,
Maybe we should be the first to ask her if she's all,
Cause maybe we could drink some,
Then we could have a threesome.

We could do it, do it,
All night, do it, do it,
Me and her, and you and you,
Drink a little to it, to it.
We could do it, do it,
All night, do it, do it,
Me and her, and you and you,
Drink a little to it, to it.
We could do it, do it,
All night, do it, do it,
Me and her, and you and you,
Drink a little to it, to it.

Maybe we could drink some,
Then we could have a threesome.
