

# Bad for You

Meek Mill

You bring a feeling to me I never show  
Nobody has made me feel this way before  
I'mma good girl  
But I wanna be bad for you  
I wanna be bad for you  
I wanna be bad-ad-ad  
I wanna be bad for you  
I wanna be bad

And they say bad girls ain't no good  
Good girls ain't no fun  
I still can't find a nigga that touch that, no one  
And I ain't searching for it  
Never trust but I'm working on it  
Fell in love with that raw game  
Swimming pool you surfing on it  
Like 'yonce do the surfboard, surfboard  
They still think you a church girl  
We linking up on your days off  
And I still give you that work girl  
Like work, twerk  
Throw it like that video, wanted that for a long time  
Cool with it I get it though  
First year we both fronted  
We had feelings we didn't show  
Second year we couldn't hide it  
Funny part they didn't know  
How could something that's so wrong feel so right?  
But who to tell you this wrong though? this your life  
Word up

You bring a feeling to me I never show  
Nobody has made me feel this way before  
I'mma good girl  
But I wanna be bad for you  
I wanna be bad for you  
I wanna be bad-ad-ad  
I wanna be bad for you  
I wanna be bad

We fucking up the city, going hard every night  
Players hating on us, you know lord they ain't right  
Cause I broke a lot of hearts, ain't do them girls right  
But you broke hearts too, but that boy ain't fight  
So they don't deserve it, it feel like it's perfect  
I'm loving your style the way you preserve it  
You look at my eyes and see what's inside  
You know that it's pride and know that I'm worth it  
But said I ain't ready, baby I'm ready  
Really I'm ready I'm ready like never before  
I'mma just give you a key to my heart  
You'll be the first that I let in the door  
I used to hear that you flirt with them guys  
They never would score  
All you would hear about me was the women  
Ain't trust them before  
You know what you're doing, f\*\*k what they said

You know what we on, when we in bed it's like we on stage  
And I got the mic so let me perform  
Sing it

You bring a feeling to me I never show  
Nobody has made me feel this way before  
I'mma good girl  
But I wanna be bad for you  
I wanna be bad for you  
I wanna be bad-ad-ad  
I wanna be bad for you  
I wanna be bad
