

# Fuckin' Wit Me

Meek Mill

Most of us successful people could tell you a story  
About when they wasn't fucking with us  
Now that we're at the top, y'all ain't fucking with us

They ain't fuck with me when my money low  
Now they tryna ride cause my money long

These niggas ain't shit, half million dollar whip, nigga  
Tell your bitch suck a rich nigga dick  
They may hate like I ain't grind for this shit  
But I ain't tripping cause you niggas ain't fucking with me  
Tell 'em "nah, nah you niggas ain't fucking with me"

Yeah, when the money came all the hoes came too  
These niggas started hating, I guess that's what fame do  
And I remain who? Me! Still be with the same crew  
None of my niggas don't fall out for bitches  
They falling for money, we ain't you, we ain't y'all niggas  
Started with a dollar and I turned that to a million  
Now the chasers in the building, it ain't hard nigga  
I'm like oh lord what a feeling when you pull up  
Drop the ceiling on them suckers that was watching while we starv  
They got fat and I got slim so I shitted on them niggas when I got it  
My homie caught me for some paper. They were not my friend  
More money than you can ever think  
Now we buying more PJ than we can ever drink  
More than we could ever swallow  
Get money that's my motto  
When you in the lead there's nothing to follow  
I know...

When the money came all the problems came too  
And when the problems came all they had to blame was you  
And niggas said I changed, you would probably change too  
When niggas is hating they catching them vapors  
And mad at favors that you ain't do  
They gon' switch sides  
I could tell you suckers want me gone  
Before I let my mama mourn, you know I'm a let that shit fly  
And I used to get it on  
Selling crack till it was dawn  
Moving fish, and I ain't talking bout no fish fry  
And the reason they can't keep up, cause when they sleep you know we up  
We move kilos then re-up  
I do one lap, then I speed up  
With a plan A, you couldn't be us  
Y'all see us when it's game time  
And it's 4th quarter let's D up  
I'm a be up, with my feet up  
And I'm a eat up every beat up  
That they feed us, it's a fetus.  
I have more stripes than Adidas  
And my dawg told me don't ease up, kill these niggas  
And what I do, murder them all me and my Philly niggas

These niggas ain't shit, half million dollar whip, nigga  
Tell your bitch suck a rich nigga dick

They may hate like I ain't grind for this shit  
But I ain't tripping cause you niggas ain't fucking with me  
Tell 'em "nah, nah you niggas ain't fucking with me"

I'm on a decade of dominating the game  
With the legends, the hottest MCs, and the new niggas  
It's me!  
They ain't fuckin' with me  
It's the DC 3
