

Just One Of Those Things

Meg & Dia

Give me a minute
I need a second
Got to breathe there
It's Just one of those things

wish I could tell you
How much I need you
And how much you
need me to go

Please don't listen
to what I'm gonna tell you
Look in my eyes and know
I simply had to give up
But I didn't let go without struggle
you know, I still love you
It's just, just one of those things

I know I made it seem
Like all was written down
And I hid all my pain
And now I bring it out

And you'll be scared at first
cuz it's such an ugly blow
I don't know which is worse
to learn or not to know

Please don't listen
to what I'm gonna tell you
Look in my eyes and know
I simply had to give up
But I didn't let go without struggle
you know, I still love you
It's just, just one of those things

Please don't listen
to what I'm gonna tell you
Look in my eyes and know
I simply had to give up
But I didn't let go without struggle
you know, I still love you
It's just, it's just one of those things

I tried to tell you a million times
That you have always been one of us
I tried to tell you a million times
You have always been one of us

Please don't listen
(I tried to tell you a million times
That you have always been one of us)
Please don't listen
(I tried to tell you a million times
That you have always been one of us)
Please don't listen....
