

Strawberry Waltz

Meg & Dia

Disregard what we know
Well your voice is so low
Will I stay
Will I go this evening
See the light on the rail
Reflect red off the tail lights
In front of us.
Slowly leading.

Heed my warning my darling
Don't let the twilight drown
Feel the shoreline thriving
Turn around
Turn around
Turn around

Well we pull off the road,
Sinking slow, sinking slow
And the gravel recedes into dust
And the unfaithful sun
Went to burn all alone
Just to love, just for love
Just for plain simple love.

Heed my warning my darling
Don't let the twilight drown
Feel the shoreline thriving
Turn around
Turn around
Turn around

Oh oh

Heed my warning my darling
Don't let the twilight drown
Feel the shoreline thriving
Turn around
Turn around
Turn around
