## **Bodies**

## Megadeth

This thing called "life" goes by so quickly One day you're here and then you're gone This is the moment I've lived my whole life for And I'll never give up, I've waited too long

I've waited Waited too long I've waited too long

And all along the road All the bodies left behind May all have been good friends Just not good friends of mine

I've been kicked out and said I quit Then I said, "I had enough" and "this is it" All I wanted was just one more show for the road 'Cause it was over last time before I could blink, I could blin k

I've waited Waited too long I've waited too long

And all along the road All the bodies left behind May all have been good friends Just not good friends of mine Their bodies left behind
