

Wrecker

Megadeth

It doesn't matter what car you drive, she'll wreck it
It doesn't matter where you sleep at night, she'll wreck it
It doesn't matter where you go to work
Doesn't matter where you go to church
Doesn't matter just how bad it hurts, she'll wreck it

My bleached bones in the desert, it's all she's left of me

Poison ivy in your touch, being with you destroyed so much
Home wrecker
Deadly venom in your kiss, hell can't be worse than this
Home wrecker

It doesn't matter what you pretend, she'll wreck it
It doesn't matter what you defend, she'll wreck it
It doesn't matter how you live your life
Doesn't matter anymore to your wife
Doesn't matter even how you die, she'll wreck that too

Like a vulture picking my bones clean, it's all that's left of me

Poison ivy in your touch, being with you destroyed so much
Home wrecker
Deadly venom in your kiss, hell can't be worse than this
Home wrecker

It doesn't matter where you live
It doesn't matter what you drive
Home wrecker
