

# Dare

Megan & Liz

Dare me, dare me  
Double dare me  
Dare me, dare me  
Double

My head says stop  
He's a bad boy, too  
He plays guitar  
And he's got tattoos  
He drives too fast  
Never mentions his past  
There's so much doubt  
I'm gonna hear him out  
(i hope he comes tomorrow)

Don't stop, just go go go with the flow  
Yeah, follow your heart or you'll never know

Don't believe  
Everything you see  
Always over thinkin'  
Suddenly i'm sinkin' so low-ow-ow  
I'm gonna listen to my heart  
Looking for a spark  
There's no use in waiting  
No more hesitating  
Watch me go-o-o  
So truth is i'm gonna dare

Dare me. dare me. double dare me.  
Dare me. dare me. double

Truth is i'm gonna go  
Don't listen to them  
Cuz you just never know  
How it's gonna end  
(yeah, yeah)  
I'm not afraid  
(we can be brave)  
I'm gonna dare to dream  
(i found you and me)  
I won't be left alone  
(checking my phone)  
Making what could have been  
(i hope he comes tomorrow)

Don't stop, just go go go with the flow  
Yeah, follow your heart or you'll never know

Don't believe  
Everything you see  
Always over thinkin'  
Suddenly i'm sinkin' so low-ow-ow  
I'm gonna listen to my heart  
Looking for a spark  
There's no use in waiting  
No more hesitating

Watch me go-o-o  
So truth is i'm gonna dare

Watch me go  
(watch me)  
Cuz he is so charming and  
Maybe it's a warning  
My head says no  
(head says no)  
Cuz my heart booming  
He's everything i've wanted  
Don't you leave me wondering

I open my window  
He's standing outside  
On top of his car  
Guitar by his side  
He says that the truth is  
I want you to know  
He holds out his hand  
Says i dare you to go-o with me  
I dare you to go

Don't believe  
Everything you see  
Always over thinkin'  
Suddenly i'm sinkin' so low-ow-ow  
I'm gonna listen to my heart  
Looking for a spark  
There's no use in waiting  
No more hesitating  
Just go-o-o  
Watch me go-o-o  
So truth is i'm gonna dare

Dare me, dare me  
Double dare me  
Dare me, dare me  
Double dare me
