

Indescribable

Megan & Liz

Lying here with you, I feel it
Hearing your heart beat now,
I believe it
Smiling at me, unlike anyone one else, differently
You waited for me, so patiently
You know you know you know
It's good when you can't wait
To see him again
And he could he could he could
Be the one you've been waiting for your whole life
And you can't describe it
It's indescribable
La la la la la la la la
La la la la la la la
It's when you tease me because of my silly laugh
It's when we come to school with shirts that match
You keep me up late at night on the phone
Because neither of us wanna say goodbye
Nooooooooo
You know you know you know
It's good when you can't wait
To see him again
And he could he could he could
Be the one you've been waiting for your whole life
And you can't describe it
It's indescribable
La la la la la la la la
La la la la la la la
You know you know you know
He could he could he could
You know you know you now
It's good when you can't wait
To see him again
And he could he could he could be the one
You've been waiting for your whole life
And you can't describe it
It's indescribable
La la la la la la la la
La la la la la la la
And I'm thankful for that day,
When you started looking at me that way
