

Long Distance

Megan & Liz

i heard you were, just passing through, i neverm meant,
to get attached to you, the day we met, i still hold on to

it was out of the blue, you played a show, when we locked eyes,
by the stereo, fell into your eyes so blue

[chorus]

no matter how it goes, goes, goes i just want you to know, know, know,
im reminiscing, thinkin' bout' us kissin', now could take, take,
take a million miles away, way, way?
its you im missing, and theres a long, long, long...distance...

we keep in touch, though outta' reach, i almost wish, we didnt
meet, its not enough, to keep a romance sweet

i was outta' my mind, to let you in, i should of thaught, of yo
u as just a friend, but now you've got me
learning till the end

no matter how it goes, goes, goes, i just want you to know, know, k
now, im reminiscing, thinkin' about us kissin', now could you t
ake, take, take, a million miles away, way, way, its you im missing
, and theres a long, long, long...

but it makes a good story anyway, all the memories created in o
ne day, i geuss they've found a place to stay, so were keepin' u
p with tis facade, missing messages and signs that were not oka
y
just pretend you feel the same

that not matter how it goes! goes! goes!
i just want want you to know! know! know!
im reminiscing! thinkin' bout' us kissin! now could tou take! t
ake! take!,
a million miles away, way, way!?
its you im missing!
and theres a long! long! long!...distance
