

Night Of Our Lives

Megan & Liz

Close your eyes, take it in
This is life happening, mhm
We fell in love, fell apart
End with mended hearts, mhm

You don't have to leave, but you know where you can stay

This is the night of our lives, chasing the stars in your eyes
Lost in a moment in time, when everything is alright, cause
Time flies and it's goodbye
And I'll see you on the other side
This is the night of our lives

Suddenly, gravity isn't holding us down, down
Who we are, who we'll be
Barely keeping us on the ground

And no one can take what we have today

This is the night of our lives, chasing the stars in your eyes
Lost in a moment in time, when everything is alright, cause
Time flies and it's goodbye
And I'll see you on the other side
This is the night of our lives

And everything lead to this, the words still on your lips
Taking a risk, like the rush of a kiss
When everything starts to change, remember this place

This is the night of our lives, chasing the stars in your eyes
Lost in a moment in time, when everything is alright

This is the night of our lives, chasing the stars in your eyes
Lost in a moment in time, when everything is alright, cause
Time flies and it's goodbye
And I'll see you on the other side
This is the night of our lives

(Time flies)
Do do do do do
(Time flies)
This is the night of our lives
(Time flies)
Do do do do do
(Time flies)
