

Release You

Megan & Liz

Yeah!

I used to build you up
To watch you, tear me down
I'd always let you in
And let you kick me out!

You used to make me laugh
But now you make me sick
Thought you were just so dope
But now you're full of it

Cuz all day and all night
I would take all your shhh
Your what?
Yeah all day and all night
But I'm o-over it

It's all good
Yeah baby
It's alright
I release you
Tonight
It's all cool
N-no need to think twice
I release you
Goodbye! (4x)
Yeah!

You said you need your space
How 'bout a thousand miles
How bout I change the locks
In case you change your mind
I waited patiently
For you to come around
I used to hold it in
But now I'm freaking out

Cuz all day and all night
I would take all your shhh
Your what?
Yeah all day and all night
I'm o-over it

It's all good
Yeah baby
It's alright
I release you
Tonight
It's all cool
N-no need to think twice
I release you
Goodbye! (4x)
Yeah!

Hey baby! I know I'm good without you
Hey baby! I ooooooooooooooh
Hey baby! I I'll never think about you

Hey baby! I ooooooooooooooh
