

Run Away

Megan & Liz

I'm ready to go, I'm ready to climb, I've quietly been reading
your mind
I don't need a thing, I'm writing a book, this story's really g
ot me hooked
It's amazing the changes I've been feeling I'm dreamin' about s
eein' the world with someone like you
I've been tumbling, shakin' and my whole world is breakin' wann
a put it together?

And if we run away, run away, now we won't ever look back And i
f we run away, run away, now we won't ever look back
We'll run, run, run away, run, run, run away, run, run, run awa
y

Follow the wind, I'm up for a spin, I feel perfect in the arms
I'm in
And were takin' flight the whole world is right I hope were in
the air all night
It's amazing the changes I've been feeling I'm dreamin' about s
eein' the world with someone like you I've been tumbling, shaki
n' and my whole world is breakin' won't you put it together?

And if we run away, run away, now we won't ever look back And i
f we run away, run away, now we won't ever look back
We'll run, run, run away, run, run, run away, run, run, run awa
y

(we'll run away) even now is the time, rivers far and wide, we
can pass em all, with time by our side every step that we take
were movin' everyday

It's amazing the changes I've been feeling I'm dreamin' about s
eein' the world with someone like you
I've been tumbling, shakin' and my whole world is breakin' wann
a put it together?

And if we run away, run away, now we won't ever look back And i
f we run away, run away, now we won't ever look back
We'll run, run, run away, run, run, run away, run, run, run awa
y
We'll run, run, run away, run, run, run away...
