

## Switch Hearts

Megan & Liz

I saw you in your red car today  
Wondering how you looked okay  
Cause you seemed to be fine and you seem to be blind  
To this broken heart if mine

Maybe if you knew my pain  
Maybe you would feel the same  
Maybe you would cry my name every time I walked away

Would you, could you have trouble falling asleep?  
If you knew what I'm going through  
If I could only switch hearts with you  
Switch hearts, switch hearts with you  
Switch hearts, switch hearts with you

If you saw me in my white car today  
Would you tell me that you thought I looked okay?  
Cause I'm not doing fine and you seem to be blind  
To this broken heart of mine

Maybe if you knew my pain  
Maybe you would feel the same  
Maybe you would cry my name every time I walked away

Would you, could you have trouble falling asleep?  
If you knew what I'm going through  
If I could only switch hearts with you

Only then could you see my point of view  
Only then could you see my shade of blue  
Only then, only then, only then

Maybe if you knew my pain  
Maybe you would feel the same  
Maybe you would cry my name every time I waled away

Would you, could you have trouble falling asleep?  
If you knew what I'm going through  
If I could only switch hearts with you  
Switch hearts, switch hearts with you  
Switch hearts, switch hearts with you

I saw you in you red car today  
Wondering how you looked okay
