

Migraine

Speak your peace
Better believe me, better believe me
I can't take
Seeing your face, please believe me

Use me
Forsake me
Or leave me be

You're all the same
I'm way ashamed
Don't try to hide
With alibis
Can't take the blame
Fucked-up your name
Please come inside
Never mind

Don't believe
Every angle
Every moment
You can't see
Your soul is brittle
From my torment

Use me
Forsake me
Or leave me be

You're all the same
I'm way ashamed
Don't try to hide
With alibis
Can't take the blame
Fucked-up your name
Please come inside
Never mind

You're all the same
I'm way ashamed
Don't try to hide
With alibis
Can't take the blame
Fucked-up your name
Please come inside
Never mind
