

# Escape

Megan Nicole

Run run run away  
Meet me in our hiding place  
Find me where we'll make our escape

Come come come away  
We don't need them anyway  
Find me where we'll make our escape

Slow it down  
Cause I can't breathe  
So much noise  
That I can't see

I'm forgetting  
Who I am  
Why can't they see  
That I'm not perfect

Cause I'll never be  
What they want me to be  
I have to believe  
That I'm good enough

I need a release  
Somewhere I can be free  
And find the me  
I used to know

So I'm going back  
To the place it began  
Under the tree  
At the top of the hill

We'd share all our dreams  
Or not say a word  
That's where I know  
Just who I am

Lay with me  
Just be still  
Feel it all  
Disappear  
Disappear

Now I'm letting go  
And won't put on a show  
I finally believe  
That I'm good enough

You made me strong  
To know all along  
I am the me  
I used to know

So I'm going back  
To the place it began  
Under the tree

At the top of the hill

We'd share all our dreams  
Or not say a word  
That's where I know  
Just who I am

So I'm going back  
To the place it began  
Under the tree  
At the top of the hill

We'd share all our dreams  
Or not say a word  
That's where I know  
Just who I am

Run run run away  
Meet me in our hiding place  
Find me where we'll make our escape

Come come come away  
We don't need them anyway  
Find me where we'll make our escape

So I'm going back  
To the place it began  
Under the tree  
At the top of the hill

We'd share all our dreams  
Or not say a word  
That's where I know  
Just who I am

So I'm going back  
To the place it began  
Under the tree  
At the top of the hill

We'd share all our dreams  
Or not say a word  
That's where I know  
Just who I am

Run run run away  
Meet me in our hiding place  
Find me where we'll make our escape
