

# Never Wanna Let You Go

Megan Nicole

Quit playing games  
Don't lead me on  
Make me feel  
Like I'm your one  
When you're gonna  
Let me go

Why won't you  
Give me a chance  
To show you  
Every side of me  
And how we're  
Meant to be

'Cause you're too scared to  
Let me in  
And let this love begin

Never wanna let you go  
Never wanna be alone  
Tell me how it ought to be right now  
Never wanna leave your side  
Never wanna say goodbye  
Tell me how it ought to be right now

I see the way you  
Look at her  
The way you used to look at me  
Now I can finally see

Broken hearts  
And broken dreams  
There will never be a  
You and me  
Can't find the air to breathe

'Cause you're too scared to  
Let me in  
Let this love begin

Never wanna let you go  
Never wanna be alone  
Tell me how it ought to be right now  
Never wanna leave your side  
Never wanna say goodbye  
Tell me how it ought to be right now

'Cause I'm falling  
Do you still care?  
'Cause I'm falling  
Will you be there?

Never wanna let you go  
Never wanna be alone  
Tell me how it ought to be right now  
Never wanna leave your side  
Never wanna say goodbye

Tell me how it ought to be right now

Never wanna let you go

Never wanna be alone

Tell me how it ought to be right now

Never wanna leave your side

Never wanna say goodbye

Tell me how it ought to be

Tell me how it ought to be right now
