

# All the Ways

Meghan Trainor

I need more details, more texts, calls, and emails  
Be more specific, yes, I'm here to listen  
I know I'm needy, but tell me you need me  
No don't be afraid, babe, c'mon, explain

If you love me, love me, love me like you say  
Darling, tell me all the ways, tell me all the ways

And he said all the ways, all the ways, all the ways  
Tell me all the ways  
And he said all the ways, all the ways (you love me), all the ways  
Tell me all the ways, and he said

Take me out dancin', don't forget romancin'  
And it's been a while since I've been your princess  
Tell me your heart's blue when, when I'm not with you  
Don't be afraid, babe, c'mon, explain

If you love me, love me, love me like you say  
Darling, tell me all the ways, tell me all the ways

And he said all the ways, all the ways, all the ways  
Tell me all the ways  
And he said all the ways, all the ways (you love me), all the ways  
Tell me all the ways

The way you, you love me  
The way you, you love me

And he said, "Girl, you take care of me  
You are my therapy, the better half of me"  
Say it again, say it again, oh  
"Girl, you take care of me  
You are my therapy, the better half of me"  
Say it again, say it again

If you love me, love me, love me like you say  
Darling, tell me all the ways, tell me all the ways

And he said all the ways, all the ways, all the ways  
Tell me all the ways  
And he said all the ways, all the ways (you love me), all the ways  
Tell me all the ways, and he said

The way you, you love me  
("Girl, you take care of me (All the ways, all the ways)  
You are my therapy, the better half of me" (All the ways))  
Tell me all the ways, and he said  
The way you, you love me  
("Girl, you take care of me (All the ways, all the ways)  
You are my therapy, the better half of me" (All the ways))

The way you, you love me
