

Remember

Meghan Trainor

Remember you said
Life ain't easy
And that things may turn out wrong

Remember you tried you tried to help me
And I wrote it in this song
But the times they seem to change
And no I don't feel the same

Remember you told me love was only
A fraction of my time
But I think you're wrong
I've seen all along
That his heart belongs to mine

And the times they seem to change
And no I don't feel the same
Cause you try you try
to worry about it all
It's a good life
a good life
Go live it up right tonight

Don't go and try to remember
how cold it was last December
Leave your stress
and leave your pain
Leave your worries out the door

Don't want to hear it no more
you try you try
to worry about it all
It's a good life, a good life

Go live it up right tonight
you try you try
to worry about it all
It's a good life
a good life

Go live it up right tonight
you try you try
to worry about it all
It's a good life
a good life

Go live it up right tonight
you try you try
to worry about it all
It's a good life
a good life

Go live it up right tonight
Don't go and try
to remember
how cold it was last December
