

Woman Up

Meghan Trainor

Woman up
Woman up
Up
Woman up
Woman up
Woman up
Up, up, up, up

Put your favorite heels on
Cause they make you feel strong
When you're lookin' good
You know you're gonna have a good time
Don't forget mascara
And to keep your head up
Like Madonna would
Rub her lipstick redder than wine

So let's go
Roll your bumper and whine slow
Show them you can shine, glow
Cause you got the light now
You got the light now - ow!

All my girls raise your hand
If you don't need a man
Cause you're more than good enough
You gotta woman up, woman up
All my girls, we show, we groove
Just make them remember you
This one for all my girls
My girls who woman up, woman up

Woman up, woman up
Woman up, woman up
Woman up, woman up

When you wear your hair down
It's like you're wearing your crown
Wave to the crowd
And give them all a wink cause you're fine

So let's go
Roll your bumper and whine slow
Show them you can shine, glow
Cause you got the light now
So let's go
Roll your bumper and whine slow
Show them you can shine, glow
Cause you got the light now
You got the light now - ow!

All my girls raise your hand
If you don't need a man
Cause you're more than good enough
You gotta woman up, woman up
All my girls, we show, we groove
Just make them remember you

This one for all my girls
My girls who woman up, woman up

Woman up, woman up
Woman up, woman up
Woman up, woman up

Hey
All my girls raise your hand
(Raise your hand)
If you don't need a man
(Time to take a stand, mhm)
Woman up, woman up
Don't matter what you've been through
(No)
Just make them remember you
(Remember you, all my girls...)
Woman up, woman up

So let's go
Roll your bumper and whine slow
Show them you can shine, glow
Cause you got the light now
So let's go
Roll your bumper and whine slow
Show them you can shine, glow
Cause you got the light now
You got the light now - ow!
