This song's going to you The one who's so confused The one who feels so used

You don't have to wait For all this silly fate For things you cannot make

Hey, what are you going to say? What are you going to do? When it's all said and done

I watched you from afar Wishing on every star Saving every penny

And I used to feel the same Like everything's a game But all I kept doing was losing

So hey, what are you going to say? What are you going to do? When it's all said and done

Hey, what are you going to say? What are you going to do? When it's all said When it's all said and done
