

Rainbow

Meja

Can somebody tell me
how clouds can make you
forget a blue sky
Thought I'd hide in the rain
but you saw me cry

I used to be lonely
and love was something
just others had found
I thought no one could know me
'til you came around

The sun has so much power
splits right through the rain
I feel just like a flower
Totally insane, what do you say?

Do you believe
we can reach right on up to the rainbow?
Do you believe
in the colours you see when I smile?
Before I met you
so much in my life here was painful
But now I can see that my rainbow
will stay for a while

Baby, life is so precious
and time spins by so terribly fast
We gotta live each day
like it could be the last

The sun has so much power
splits right through the rain
I feel just like a flower
Totally insane, what do you say?

Do you believe
we can reach right on up to the rainbow?
Do you believe
in the colours you see when I smile?
Before I met you
so much in my life here was painful
But now I can see that my rainbow
will stay for a while

Put your arms around me, don't let go
sleeping, breathing, lover, river flow
