

## Kill The Enemy

Mekong Delta

I'm given order to survive  
No way to spare the other's life  
The battle must be finished now  
We'll purificate this damned town  
Kill the enemy  
I've struggled hard without success  
I gave them all my very best  
The again is now I'm kicked aside  
I would be starved if I won't fight  
We embody the depravity  
Those ones propriety  
They'll curse the day they're born when  
We've got them under fire  
Kill the enemy
