

Kill The Enemy

Mekong Delta

I'm given order to survive
No way to spare the other's life
The battle must be finished now
We'll purificate this damned town
Kill the enemy
I've struggled hard without success
I gave them all my very best
The again is now I'm kicked aside
I would be starved if I won't fight
We embody the depravity
Those ones propriety
They'll curse the day they're born when
We've got them under fire
Kill the enemy
