

Cling To Me

Mel Tillis

Keep the cold lonely world to my bedroom for a while
Sit here beside my and let me see you smile
For when I'm alone minutes are eternity so for a few fleeting moments cling to me
Cling to me and let the sunshine of your sweet love come in
Before I remember what a fool I have been
Even though we have started a love that just can't be
For a few fleeting moments cling to me

Cling to me and let the sunshine,
For a few fleeting moments cling to me
