## **I Love You Drops**

## **Mel Tillis**

They're not teardrops just sincere drops they're I love you dro ps cause I love you

They were on my pillow when I woke up this morning
They were on the letter I tried all day to write
And just a little while ago I saw them falling on your p

And just a little while ago I saw them falling on your picture as I kissed it goodnight

I love you drops I miss you drops hurry home drops you've been gone so long drops

Never knew this heart could hurt the way it hurts for you Never lived so many lifetimes in a week Why don't you come back to me the way you said you would And kiss these softly little crystals off my cheek I love you drops
