## If I Could Only Start Over

## **Mel Tillis**

Now if I could only start over and have a new life to begin I wouldn't live like a rover and drift like a leaf in the wind Cause I'm dreaming tonight of old sweethearts and believe me I've had quite a few

But I never dreamed of old sweethearts the way that I dream about you

Yes I let you slip through my fingers while foolishly searching around

But if I could only start over I know you could settle me down Cause I'm dreaming tonight,

But I never dreamed of old sweethearts the way that I dream about you
