

Old Faithful

Mel Tillis

I always called her old faithful she was always there when I came home
And I never thought the day would come she'd leave me
But for me those kind of thinking days are gone
Cause old faithful ain't faithful anymore she's stepping out to
even up the score
She's out there where the lights are bright wining dining every
night
And old faithful ain't faithful anymore

Night after night she sits waitin' just to touch the fool that
she loves so
But now for her those waiting days are over
For absence makes the warmest heart grow cold
Cause old faithful ain't faithful
And old faithful ain't faithful anymore
