

## Old Faithful

Mel Tillis

I always called her old faithful she was always there when I came home  
And I never thought the day would come she'd leave me  
But for me those kind of thinking days are gone  
Cause old faithful ain't faithful anymore she's stepping out to  
even up the score  
She's out there where the lights are bright wining dining every  
night  
And old faithful ain't faithful anymore

Night after night she sits waitin' just to touch the fool that  
she loves so  
But now for her those waiting days are over  
For absence makes the warmest heart grow cold  
Cause old faithful ain't faithful  
And old faithful ain't faithful anymore
