

## Too Lonely Too Long

Mel Tillis

Go on look down your righteous nose at me  
But you've made me everything that I've turned out to be  
In very few words I can tell you where everything went wrong  
Two arms two lips too lonely too long  
Two arms that almost died from loneliness  
Two lips that cried from hunger for your kiss  
For too many empty nights I laid awake till dawn two arms two l  
ips too lonely too long

You'll never know how much it hurts to know you've never tried  
To wake all over for your touch and then be denied  
With other arms were offered me it was easy to go wrong  
Two arms two lips too lonely too long  
Two arms that almost died  
Two arms two lips too lonely too long
