

Little Piece Of Me

Melanie C

I can see you think that you're the one
I could fall for you but I wouldn't waste my time
I should be less cynical but I've heard it all before
I know exactly what's on your mind

*All you want me to be is a little souvenir
Of a night that you won't even remember

It's not because I'm worth it, Not cos I deserve it
You just wanna get your hands on a little piece of me
It's not because you feel it, Not because you really mean it
You just wanna get your hands on a little piece of me

Don't think that I'm unapproachable
Playing games with you cos I wouldn't waste my time
I could be less cynical but I've heard it all before
Every single word of every line

But I don't wanna be something you could talk about
There's something I could do without
I'm not like you, I can't fake it the way you do
You say you want me, Well if it's true

all you want me to be is a little souvenir
of a night that you won't even remember (2x)
yeah yeah yeah yeah
