

# One by One

Melanie C

Woke up with the morning sun  
Another day has just begun  
But all  
I think about is you

Woke up in this paradise  
Golden sands and bluer skies  
But all  
I think about is you

Remember we were back in our old pad  
All the simple pleasures that we had  
When all  
We needed was each other

I can see a light in your eye  
Telling me that love hasn't died  
We can ride the changes that come  
You're still the one

[Chorus:]

Wo-oah  
Wo-o-o-oah  
We can ride the changes that come  
We can pick the pieces up one by one

You tell me I don't give you time  
You're questioning what's on my mind  
But all  
I think about is you

Thinking back to summer days  
You could steal my heart away  
With just  
A glance in my direction

And I can see a light in your eye  
Telling me that love hasn't died  
We can ride the changes that come  
You're still the one

[Chorus]

And I am coming home tonight  
To bring our love back to life  
Stop this ride  
I'm getting off  
To start again with you my love

Oh I am coming home tonight  
To bring our love back to life  
Stop this ride  
I'm getting off  
To start again with you my love

[Chorus 2x]
