

# Absolutely Happy

Melanie Doane

How did I think it would be  
Maybe like a tv show  
Half hour episodes  
to solve everything and make you  
absolutely happy  
Absolutely happy

Now I've made you cry  
Never see it coming  
Always takes me by surprise  
that I don't make you  
absolutely happy,  
Sure gonna try to make you  
absolutely happy

And why should I  
I'm as mixed up as the next guy  
And how could I  
I'm just a woman  
who wants to be here by your side

Wipe those tears away  
'Cause they'll be here again  
before we know it  
Just have one thing to say  
that I will never make you  
absolutely happy,  
I'm sure gonna try to make you  
absolutely happy,  
But I know I'll never make you  
absolutely happy,  
Still I'll try to make you  
absolutely happy
