## **Absolutely Happy**

**Melanie Doane** 

How did I think it would be Maybe like a tv show Half hour episodes to solve everything and make you absolutely happy Absolutely happy

Now I've made you cry Never see it coming Always takes me by surprise that I don't make you absolutely happy, Sure gonna try to make you absolutely happy

And why should I I'm as mixed up as the next guy And how could I I'm just a woman who wants to be here by your side

Wipe those tears away Ôcause they'll be here again before we know it Just have one thing to say that I will never make you absolutely happy, I'm sure gonna try to make you absolutely happy, But I know I'll never make you absolutely happy, Still I'll try to make you absolutely happy
