

I Can't Take My Eyes Off You

Melanie Doane

So dear to me
Always keep me company
Who needs to go outside
I will be your silent bride
I can't take my eyes off you
Nothing ever needs to be said
You send your message
Right into my head
You fill me up when I'm alone
So soothing is your monotone
I can't take my eyes off you
I can't take my eyes off you
So maybe you're not as real
As the others
But I choose you over all my past lovers
For they have come and they have gone
But I can always turn you on
I can't take my eyes off you
I can't take my eyes off you
