Johnny

Melanie Fiona

Hello Hello Hello Hello

Oh not again One thing lead to another way He said let's just be friends Right then and there I said to him

Oh thanks so much for nothing I hope you find that something Or whoever she is you think you're looking for Oh don't do me any favors I guess I'll see you later Matter fact pull over and let me out this door

Oh johnny took my heart And left me right here on the sidewalk On the corner is where he dropped me I'm saying ohh why did we have to part So now I'm dialing on my cellphone Begging johnny baby bring me back my heart

Bring me back my heart Bring me back my heart Bring me back my heart

Now I ask myself why? Why did I let him go? now I'm Walking alone, alone in this cold Johnny the least you could've done Was drive me home

Oh thanks so much for nothing I hope you find that something Or whoever she is you think you're looking for Oh don't do me any favors I guess I'll see you later Matter fact don't bother knocking on my door

Oh johnny took my heart And left me right here on the sidewalk On the corner is where he dropped me I'm saying ohh why did we have to part So now I'm dialing on my cellphone Begging johnny baby bring me back my heart

Bring me back my heart (my heart) Bring me back my heart (my heart) Bring me back my heart (my heart)

Now I'm hiding This is hard for me to do See I'm not that chick whos sits around And waits all night for you But you're worth it Why you left me I don't know But I'll walk these streets all night Until I bring my baby home Oh I need your loving You got that special something Who am I kidding Please johnny come back home

Oh johnny took my heart And left me right here on the sidewalk On the corner is where he dropped me I'm saying ohh why did we have to part So now I'm dialing on my cellphone Begging johnny baby bring me back my heart
