

Magic

Melanie Fiona

Said it's just like magic magic
Girl I need your magic magic

Said it's just like magic magic
Girl I need your magic magic
If my heart could see
It would think it's a game
Cause I swear I felt your touch
And my mind felt the same
So now what do I do
Cause I'm alone in this room

I have your name on repeat
It's a shame
Cause I feel like you're close
And my bodys thinking the same
I wish that I could hold you
But I'm alone in this room

Is it some kinda spell you do
Cause I'm swearing up and down it got me
It's supernatural
I feel something new

Even tho your gone
You still turn me gone
Think I better body up
Ooo it's that magic touch

Baby you're not here
But I can feel you there
Think I better body up
Ooo it's that magic touch

Said it feels like magic magic
Girl I need your magic magic
Said it feels like magic magic
Girl I need your magic magic

Baby it's
Always talking fantasy
When you're not here with me
So I do what I do
When I'm alone in this room

It's really not a game
You're my pleasure and pain
But it's a special kinda hurt
And I'm going insane
And ooo I like to play you
When I'm alone in this room

Is it some kinda spell you do
Cause I'm swearing up and down it got me
It's supernatural
I feel something new

Even tho your gone
You still turn me gone
Think I better body up
Ooo it's that magic touch

Baby you're not here
But I can feel you there
Think I better body up
Ooo it's that magic touch

And what I'm loving the most
Is when you come home
You're making the whole experience
So memorable

And it's just like magic magic
Said it's just like magic magic

And I never want it to end
That's why I just come
So this time will never end

Said it feels like magic magic
Girl I need your magic magic
Said it feels like magic magic
Said it feels like magic magic
Said it feels like magic magic
Said it feels like magic magic

Even tho your gone
You still turn me one
Think I better body up
Ooo it's that magic touch

Baby you're not here
But I can feel you there
Think I better body up
Ooo it's that magic touch
