

# Wrong Side Of A Love Song

Melanie Fiona

Where were you when I needed a friend?  
Thought I could be strong  
Never knew I'd be so wrong  
A heart-breaker most of my life  
Suddenly all changed  
The moment you left me  
And walked out my life

I tried to play cool  
But instead I was playing myself  
What you gotta know about me  
Is that I'm dying in this lonely hell

And I don't wanna be without you  
Cause I can hardly breathe without you  
This is what it feels to be the one  
Who's standin' left behind  
How did I become the wrong side of the love song?

Baby, I'm a mess  
Out of every piece and part of me  
You were always the best  
But instead I was leaving you here alone  
But I didn't mean it,  
No, I didn't mean it  
Now I'm begging, baby, come home

And you got me singing why,  
Why you wanna make me cry?  
I'll be thinking 'bout you  
Got me dreaming 'bout you  
Every single day and night

And I don't wanna be without you  
Cause I can hardly breathe without you  
This is what it feels to be the one  
Who's standin' left behind  
How did I become the wrong side of the love song?

How, baby?  
Wanna know why?  
Can you tell me, why?  
Said that you'll be there for me  
Said you'll care for me  
So now you're gonna say goodbye

And I don't wanna be without you  
Cause I can hardly breathe without you  
This is what it feels to be the one  
Who's standin' left behind  
How did I become the wrong side of the love song?

Why, why?  
Why!? Why?! Why?! Oh oh oh need you oh  
I really, really need you now, I really really need you now  
I really, really need you now, I really really need you now, boy  
Oh, baby, oh, baby, please
