

Night Mime

Melanie Martinez

Hold those blind shutted eyes
Dip them in rising the lights
Forget my name at midnight
It's ok, I'm a mime

I'm tongue-tied in the night time
Silent, sleepless till the sunrise
Claustrophobic with a night light, night light
I'll just wait here for the sunrise
Creeping, crawl back into my life
Until then I'll be a night mime, night mime

Stay up late with broken miles
No text from you, but I'll be fine
I fall asleep with ocean eyes
I say no words like a midnight mime

A midnight mime, mime
I'm tongue-tied in the night time
Silent, sleepless till the sunrise
Claustrophobic with a night light, night light
I'll just wait here for the sunrise
Creeping, crawl back into my life
Until then I'll be a night mime, night mime

I'm tongue-tied in the night time
Silent, sleepless till the sunrise
Claustrophobic with a night light, night light
I'll just wait here for the sunrise
Creeping, crawl back into my life
Until then I'll be a night mime, night mime

I'm tongue-tied in the night time
Silent, sleepless till the sunrise
Claustrophobic with a night light, night light
I'll just wait here for the sunrise
Creeping, crawl back into my life
Until then I'll be a night mime, night mime
