

## Into the Dark

Melissa Etheridge

There were stairs they were steep  
I was falling falling deep  
You were there you were small  
There was screaming down the hall

I've been here sleeping all these years

There comes a time we all know  
There's a place that we must go  
Into the soul into the heart  
Into the dark

There was fire there was death  
There was lying on your breath  
I turned away I would pretend  
But the burning never ends

I've been here sleeping all these years

There was a wave over the house  
There was fear choked in my mouth  
You were there you left your mark  
As I stumbled in the dark
