

Every Three Words

Melissa Ferrick

I can only hear
Every three words
So make 'em count
'Cause I'm out here
Barely hanging on

There's no else I'd
Wait around this long for
Take this much no for
Makes me wonder what we're in for

So would you give me some hope
Ya give me a reason
To keep on trying
Come on buy me flowers
Smile me that smile
'Cause I just need a little something from you
For the rest of my life

And I'm sure that I've got some kind of
Motive here and when I figure it out
I'll fill you in
But every body knows
That I'm a sucker for a hard sell
Ya look at me dancing
All the way into your slaughter house
Look at me dancing for you

So would you give me some hope
Give me a reason
To keep on trying
Come on buy me flowers
Smile me that smile
Cause I just need a little something

All I need is one crack of light
To see where the entrance is
Come on open the door baby
And let's expose the answers
Yes as to why we have been through
All we've been

So would you give me some hope
Ya give me a reason
To keep on trying
Buy me flowers
Smile me that beautiful smile
'Cause I just need a little something from you
For the rest of my life
For the rest of my life
